

# Driven to perform

## SPOTLite™ intelligent transit system

Lite on price, heavy on performance—that's the mantra of ETA's streamlined SPOTLite™ transit solution. Let's be honest, not every transit operation needs a full-fledged ITS. An affordable and nimble solution, with powerful back office systems is all some agencies need to streamline operations and improve communication.

### When is SPOTLite™ the right-sized fit for your transit agency?

- ▶ When you need a modern, cloud-based intelligent transit system
- ▶ When you need to create, manage, and schedule routes
- ▶ When you need full-featured reporting capabilities
- ▶ When you have existing tablet MDT hardware or want a tablet-only MDT solution
- ▶ When you need vehicle tracking websites and mobile apps
- ▶ When you need to minimize hardware costs
- ▶ When you don't need to integrate with other systems, like fareboxes or infotainment

### SPOTLite™ includes:

- ▶ Route/schedule management
- ▶ Accurate arrival predictions
- ▶ Mobile data terminals
- ▶ Public websites & mobile apps
- ▶ Reporting module
- ▶ Service messaging
- ▶ Digital passenger counting
- ▶ 2-way driver messaging
