

PASS Driver Training Program

Colorado Association of Transit Agencies (CASTA)

We have two options to be certified in wheelchair securement training. Please see below;

OPTION I

(PASS) driver 2 days in-classroom training requires one certificate to be certified in wheelchair securement training.

Two-Day in-classroom

CTAA standard driver training with sensitivity skills training on day 1 and wheelchair securement training on day 2 by a current certified PASS Trainer; (16 hrs. total training). The trainee takes 50 question exam.

OR

OPTION II

(PASS) driver online training program; two- component program that requires two certificates to be certified in wheelchair securement training.

1st component PASS Basic Online Training

The trainee completes a self-paced online training course in sensitivity skills training. The program has 7 modules, 18-50 min per module and a 10 question test at the end of each module (3 hrs).

To Request Access Codes Order contact Joseph Parks, CASTA, josephp@coloradotransit.com

2nd component Wheelchair Training- It is mandatory the trainee attend a wheelchair securement classroom training by a current certified PASS Trainer (4 hrs) and take a 10 question test exam.

At this time, all wheelchair securement driver training packets (manuals, test, answer sheet, performance evaluation and evaluation form) will be sent by via email only within 48 hours of receipt of order. Orders received after 3:00pm EST and major holidays, will be processed the following business day.

IMPORTANT:

CTAA will notify CASTA and its recipients when the wheelchair online testing (with access codes) will start.

Please let me know if I can provide you with additional assistance. Thank you and have a great day!
