RIDERSHIP AND FARE REVENUE DATA
2019-2021

Prowers Area Transit is expanding their transit service to include a fixed route connecting the rural communities to the city of Lamar. This route just started this month and we do not have enough data to present to the grant review committee.

Our estimation of this route is as follows:

August 2022 – 250 to 300 riders
September 2022 – 275 to 325 riders
October 2022 – 300+ riders
November 2022 – 300+ riders
December 2022 – 300+ riders

Total for 2022 estimation: 1,800 to 2,200 riders.

If there is any other data we can present, please feel free to contact me.
